

THE BIOLOGICAL DUST SUPPRESSANT FOR HAUL ROADS

Providing high compressive road strength

Terrabind Max stands out with its rapid onsite solubility, which means quicker application times and less downtime for your operations. Its superior solidification process results in robust, high-compressive strength roads that withstand the harshest conditions, reducing maintenance needs and extending the lifespan of your infrastructure.

What you get from Terrabind Max

DURABLE
ROADS

EFFECTIVE DUST
SUPPRESSION

LESS CO₂
EMISSIONS

OPEX
SAVINGS

FASTER CYCLE
TIMES

APPLICATION AREAS

- › SECONDARY HAUL ROADS
- › MINE ACCESS ROADS
- › AGRICULTURAL ROADS

FEATURES	DETAILS
FORM	POWDER OR LIQUID
ADAPTABILITY	PRODUCT FORMULA ADAPTABLE TO ENSURE PERFORMANCE
EFFICIENCY	HIGH DOSE EFFICIENCY
COMPATIBILITY	EXISTING MINE EQUIPMENT INCLUDING PUMPS, DOSING STATIONS AND NOZZLES
INNOVATION	IP PROTECTED PRODUCT

Environmental
Benefits

No crude oil
No plastics

100% biological
ingredients

Eased mine
rehabilitation

Greater
biodiversity

Terrabind is the only proven way to get these results*:

Take a look at our
YouTube Channel

90 % LESS WATER USED

90 % LESS DIESEL CONSUMED

90 % LESS CARBON EMISSIONS

66 % LESS DUST PARTICLES

30 % FEWER WATER TRUCK TRIPS

*compared to water-spray dust control

Turn dust into stone
